COLD CHAIN PACKAGING EXPERT

Company Profile

Shanghai HuiZhou Industrial Co., Ltd. was founded in 2011 with registered capital of 30 million RMB. Involved in cold chain industry and serving for food and medicine associated customers, we are committed to providing integrated and professional temperature-controlled packages for temperature-sensitive items during their cold chain transportation. Through more effective and protective packages, we make people's life safe, convenient and reliable. Our products are Gel Ice Pack, Water Injection Ice Pack, Hydrate Dry Ice Pack, Ice Brick, Insulated Box Liner, Thermal Bag, Cooler Box, Insulation Carton Box, and other cold chain packaging materials

MISSION: Cold chain temperature-control packaging, Ensure your life better quality

VISION: To be the global leader in cold chain packaging

CORE VALUE: Truth; Progress; Innovation; Collaborated; Sharing

PRINCIPLE: Customer-oriented, Value sustainable development

Main Fields Applied

Gel Ice Pack

Colder For Longer

- ◇ Non-toxic and easy to use
- ◇ Put it into cold storage and fully freeze it before use
- ◇ Help to reduce product temperature during cold chain transit,Cold therapy
- ◇ Environmentally-friendly,recyclable within warranty period
- ◇ Delivery approach: Normal temperature or frozen,In plastic basket or carton box
- ◇ Round-angle ice pack available to better protect product

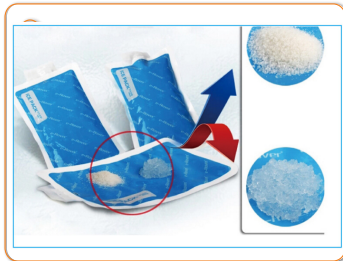

Weight (g)	Size (cm)	Bag Materials	Phase-change Temperature
45	10.5*7.5	PE PE/PA PE/PET Laminated non-woven fabrics	-10℃、-15℃、-18℃、-25℃、 0℃、 5℃、18℃、22℃
100	13* 8		
250	18*1 1		
500	22*14 5		
750	24*14.5		
2000	32*29.5		

Note:Customized options are available.

Water Injection Ice Pack

Colder For Longer

- ◇ Cool storage agent particles inside, easy to transport
- ◇ Fill water and put into the cold storage fully freeze before use
- ◇ Waterproof, Long-lasting freezing
- ◇ Help to reduce product temperature during cold chain transit, Cold therapy
- ◇ Environmentally-friendly, recyclable within warranty period
- ◇ Need fill water on site, suitable for small volume
- ◇ Delivery approach: In carton box

Capacity (ml)	Size (cm)	Bag Material	Phase-change Temperature
100	9*12.5	PE	0℃
200	10*15.5		
400	12*19.5		
500	12.5*21		
600	13*23		

Note: Customized options are available.

Hydrate Dry Ice Pack

Colder for Longer, Freely Collapsible

- ◇ Particles inside, easy to transport
- ◇ Free folding and cutting
- ◇ Soak enough water, Be fully frozen before use
- ◇ Help to reduce product temperature during cold chain transit, Cold therapy
- ◇ Environmentally-friendly, recyclable within warranty period
- ◇ Water needed, suitable for small volume
- ◇ Delivery approach: In carton box

Pieces/sheet	Size (cm)	Bag Material	Phase-change Temperature
1*1	14.5*10	PE/PA PE/PET Laminated non-woven fabrics Craft paper	0℃
3*3	28*39		
3*4	28*39		
4*6	28*39		
6*6	42*39		

Note: Customized options are available.

Ice Brick

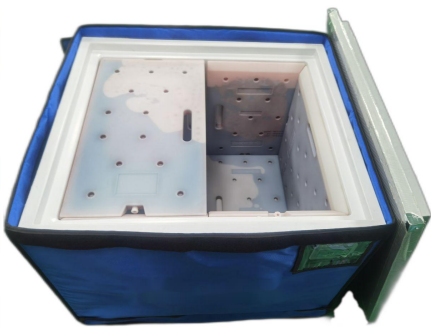

Colder for Longer, Recyclable

- ◇ Customized mold, good plasticity
- ◇ Put it into cold storage and fully frozen before use
- ◇ Help to reduce product temperature during cold chain transit
- ◇ Reusable non-toxic eco-friendly
- ◇ Delivery approach: In carton box

Weight (g)	Size (cm)	Brick Material	Phase-change Temperature
250	16.5*9*2.3	HDPE	-10℃、-15℃、-18℃、-25℃、 0℃、 5℃、18℃、22℃
450	17.5*12.5*2.5		
1000	22*17.4*2.5		
1200	30*18.5*2.7		
1300	33*23*2		

Note: Customized options are available.

Insulated Box Liner

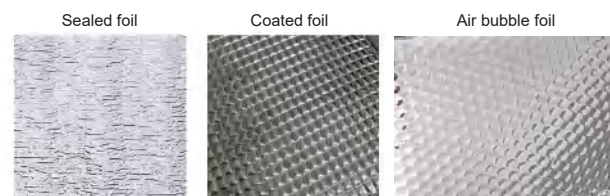

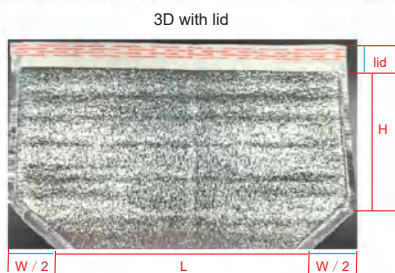

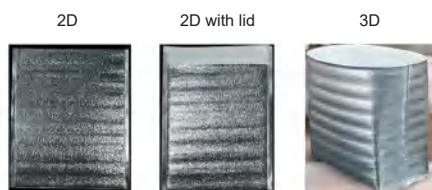

New insulated materials, long-lasting

- ◇ New thermal insulated materials
- ◇ High temperature pressing, Size 2cm larger recommended
- ◇ Looks silver
- ◇ Reusable, non-toxic, Lightweight
- ◇ Delivery approach: In carton box

Size (cm)	Thickness (mm)	Material	Option
32*22*30	2	Sealed Foil	Inner layer
32*23*28	2.5	Coated Foil	Cover, Sealing
37.5*25.5*34	3	Air Bubble Foil	2D/3D

Note: Customized options are available.

Thermal Bag

New thermal insulation materials, long-lasting

- ◇ Keep cold or heat, usually with ice pack
- ◇ Collapsible, portable
- ◇ For daily life, outdoor picnics, keep food fresh
- ◇ Gift packaging, urban delivery, cold chain transportation
- ◇ Recyclable, non-toxic, light weight
- ◇ Delivery approach: In carton box

Outer Material	Thermal Layer	Inner Material	Accessories
Non-woven fabric	EPE pearl cotton Sponge	EPE pearl cotton High-end Foil PVC PEVA	Zipper
Oxford cloth			Ribbon
PVC			Plastic Button
Woven cloth			Mesh Cloth
Dacron cloth			Elastic Cord

Note: Customized as per diverse needs; color patterns are generally silk-screened; non-woven insulation bags can be laminated or thermal transfer or offset printing, Oxford cloth or polyester insulation bags are mostly thermal transfer.

HDPE Cooler Box

New thermal insulation materials, long-lasting, efficient transit

- ◇ New thermal insulation material, good thermal insulation performance
- ◇ Large space and efficient transit
- ◇ Good toughness and durable
- ◇ Use occasion: Take-out, urban delivery, cold chain transportation
- ◇ Non-toxic, recyclable

Type	Capacity (L)	Exterior Size (cm) L*W*H	Exterior Material	Thermal Insulation Layer	Interior Material
Food	5L	27*20.5*17.5	PP PE	PU EPS	PP PS PE
	16L	36*25.6*38			
	26L	41.2*29.8*43			
	65L	60*48.9*36.7			
	85L	64*52*37.5			
	120L with wheel	105*45*48			
Pharmaceuticals	17L	38*38*38	PVC	PU+VIP VIP	PS ABS VIP
	45L	54*42*48	PP		
	84L	65*52*52	ABS		
	105L	74*58*49	PET		

Note: Customized options are available.

EPP Cooler Box

New thermal insulation material, long-lasting, high efficient

- ◇ New materials, high structural strength
- ◇ Superior cushioning performance
- ◇ Non-toxic, tasteless, light weight
- ◇ Professional thermal and fresh keeping
- ◇ Drop-resistant and durable
- ◇ For shipment, take-out, urban delivery, cold chain transit
- ◇ Environmentally friendly°radable

Capacity (l)	Exterior Size (cm) L*W*H	Interior Size (cm) L*W*H	Option
34	60*40*25	54*34*20	Exterior color Strap Temperature monitor
43	48*38*40	42*32*34	
60	56*45*38	50*39*32	
81	66*51*38	60*45*31	
108	66*52*50	60*45*42	

Note:Customized options are available.

New Arrivals

Insulation Carton Box

New thermal insulation materials, environmentally friendly

- ◇ Non-toxic, moisture-proof
- ◇ Express packaging, thermal insulation
- ◇ Foldable and printable patterns
- ◇ Recyclable

Type	Exterior Material	Thickness (mm/fluting)	Materials
KT Board	Craft Paper/White Cardboard	5mm / 7mm	Foil
EPE	Craft Paper/White Cardboard	3 layers / 5 layers	Sealed, Coated and Air Bubble Foil, XPS

Note: Customized options are available.

Thermal Hot and Cold Bag

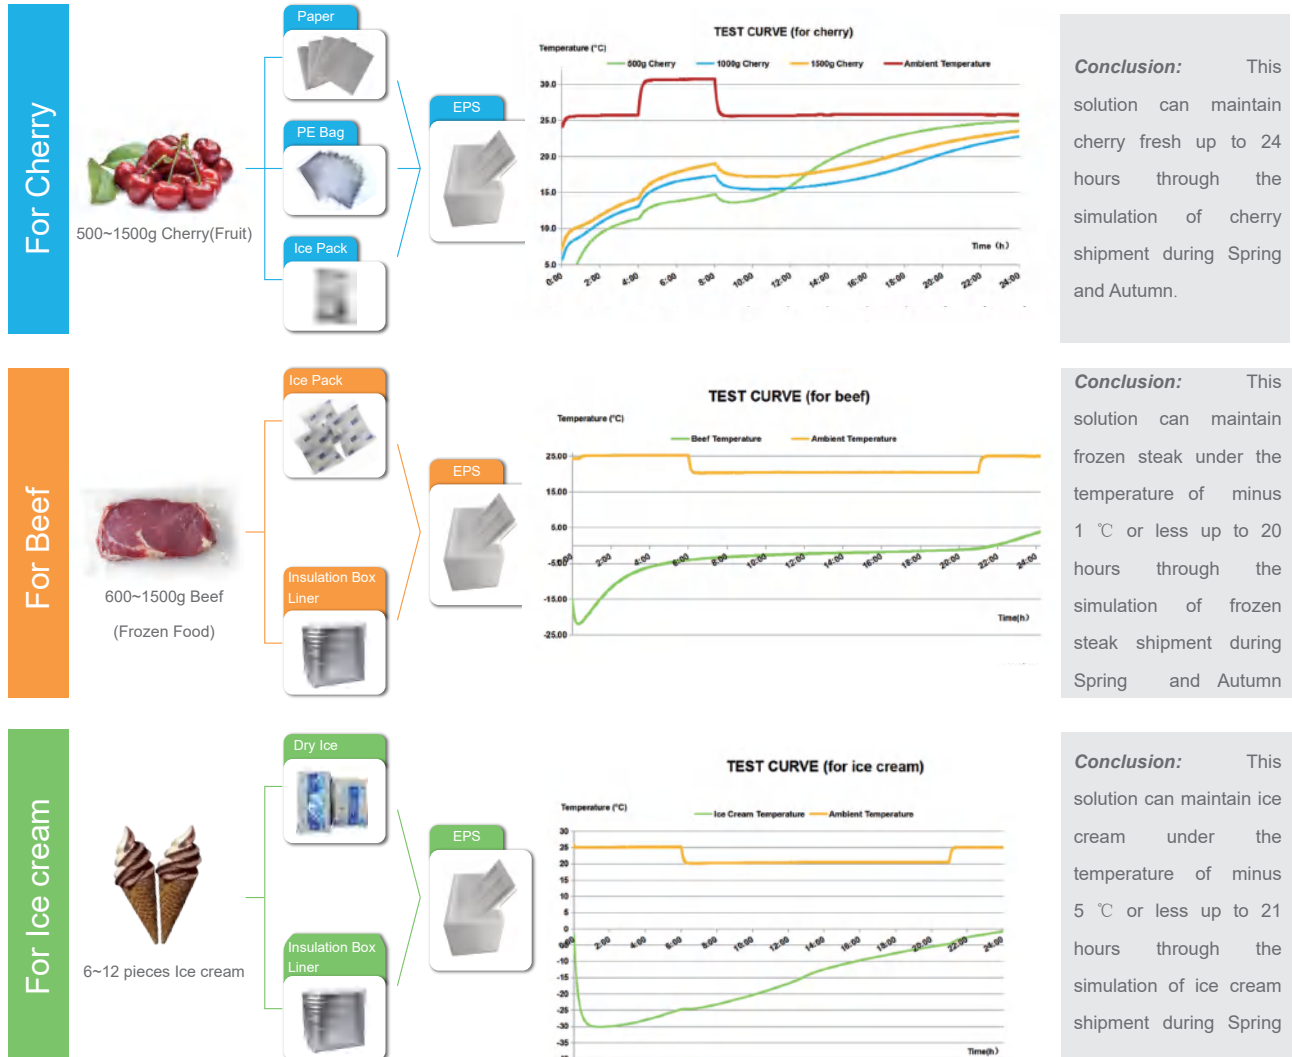

- ◇ Keep cold or heat, usually with ice pack
- ◇ Collapsible, portable
- ◇ For daily life, outdoor picnics, keep food fresh
- ◇ Gift packaging, urban delivery, cold chain transportation
- Recyclable, non-toxic, light weight
- Material Structure: AL/PET+EPE FOAM+PE.

Thermal Bag with handle	Thermal bag with base	Thermal Bag with square bottom	Zip Lock Thermal Bag
51*49cm	51*49+14cm base	33*18*40H cm	30*35cm
41*49cm	41*49+14cm base	33*14*22H cm	20*26.5cm
30*35cm	48*40+14cm base	50*22*50H cm	19.5*25cm

Note: Customized options are available.
