

# Company Profile

- Cold Chain packaging manufacturer
- Temperature Control solution expert
- 5 factories located in different regions of China
- 6 pcs cold storage room and Quick freezing warehouse
- 12 years of manufacturing experience
- 1400m<sup>2</sup> R&D center in headquarter with 10 engineers
- More than 3000 times experiment annually
- Provide phase change materials(PCM) from 0°C to 22°C and below 0°C to minus 33°C
- Obtained ISO 9001:2015 certificate

# Who We Are ?

Shanghai Huizhou Industrial Co., Ltd. is a high-tech enterprise in the cold chain industry. It was established on April 19, 2011 with a registered capital of 30 million.

The company is committed to providing fresh food (fresh fruits and vegetables, beef, mutton and poultry, seafood and aquatic products, quick-frozen foods, baked goods, low-temperature milk) and pharmaceutical cold chain transportation (biological drugs, blood products, vaccines, biological samples, in vitro diagnostic reagents, animals Healthcare) provides professional cold chain temperature control packaging solutions;

Huizhou Cold Chain Technology has become one of the leading suppliers of insulation and refrigerated packaging solutions to the world's largest pharmaceutical and biotechnology companies. Our mission is not only to maintain completely stable temperatures throughout the entire transport process, but also to help our customers optimize their supply chains to reduce their logistics costs and environmental impact.

R&D center

Production Workshop

Minus35°C Quick freezing warehouse

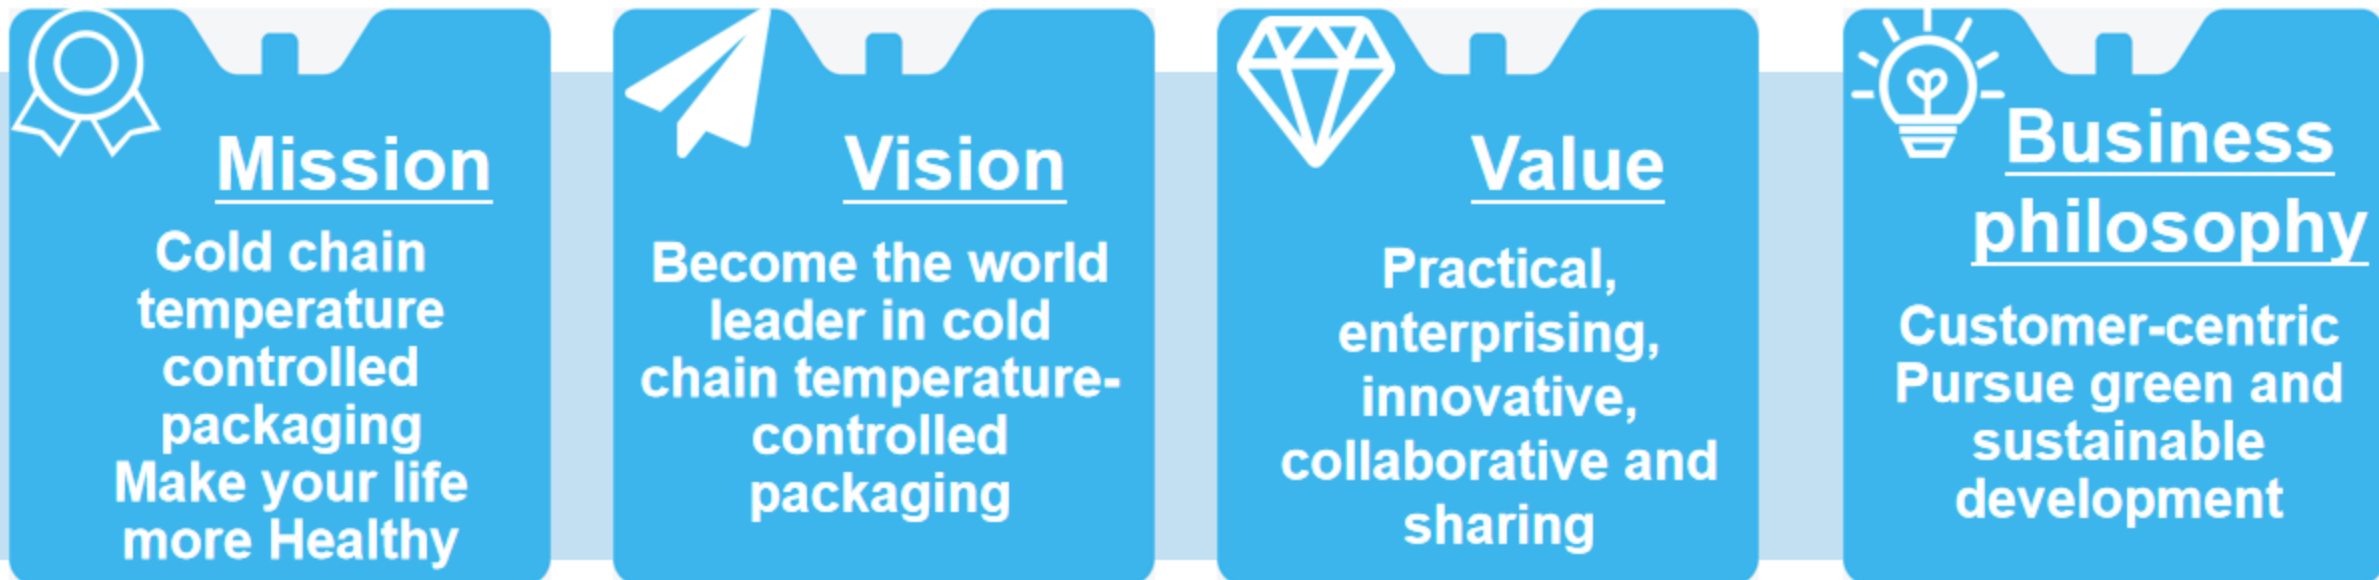

# National multi-factory collaboration

Multiple factories across the country to meet customer delivery needs during peak seasons and save transportation costs

# Company Culture

**Cold storage, thermal insulation and double temperature lock make life more secure**

# Product Application Areas

Pharmaceutical cold chain segmentation

# Show Room

Exhibited with different kind of ice pack, insulated bags, cooler box that we made and designed

# Head office and R&D Center

The company has an independent R&D center in Shanghai headquarter, which is used to research phase change energy storage technology and temperature control packaging solutions, and conduct cold chain temperature control packaging testing and verification.

The R&D center covers an area of **1,400 square meters** and has a dedicated laboratory built in accordance with the **high-end standards of CNAS and ISTA, equipped with advanced instruments and equipment**, such as: differential scanning calorimeter (DSC), precision balance (one hundred thousandth ), high and low temperature test chamber, alternating climate chamber, viscometer (Brookfield), visual verification system, etc.

It has obtained intellectual property management system certification and applied for more than 30 product technology patents.

# Laboratory equipment

**Differential Scanning**

Calorimeter DSC  
-Precisely measure the phase change point and enthalpy value;

**One hundred thousandth precision balance**  
-Readable 0.01mg

**Brookfield Viscometer**  
- Dynamic measurement of transparent fluids

**High and low temperature test chamber-3 sets**  
-Accurate temperature control; simulation;

**Constant temperature laboratory**  
2-25 degrees rapid alternation

**Environmental Climate Laboratory**  
-Minus 35-70 degrees: 30m3;

# Products & Service

## cold Storage series

GEL ICE PACK

INJECT WATER  
ICE PACK

DRY ICE SHEETS

ICE BRICKS

## Insulation series

Insulated liner

Thermal Pallet  
Cover

Thermal Bag

VIP BOX

EPP insulation box

VPU box

▲ Cold storage+insulation+professional scheme design and verification ▲

# Testing Report

**RoHS Hazardous  
Substance Report**

**MSDS report**

**Food Contact  
Safety Report**

**Air/Sea Freight  
Appraisal Report**

**Oral toxicity test  
report**

# Our Advantage

All  
categories  
product

Big  
customers  
cooperatio  
n

Over 10  
years  
Industry  
experience

Excellence  
Quality &  
Service

CNAS  
R&D  
center

CNAS is the abbreviation of China National Accreditation Service for Conformity Assessment. The full English name is China National Accreditation Service for Conformity Assessment.
